Results of the Investigation:

Having conducted an investigation of the suspects Krsto Savić and Milko Mučibabić, the Prosecutor's Office of BiH has gathered the evidence that reliably gives rise to grounded suspicion that the suspects, at the time and in the manner described in the operative part of the Indictment, committed the criminal actions listed in the operative part, which imply that they constitute a body of the criminal offence of Crimes against Humanity referred to in Article 172 (1) in conjunction with Article 180 (1) of the CC of BiH.

Apart from the stated above, during the investigation there was evidence obtained which undoubtedly confirms that the suspect Milko Mučibabić committed the criminal actions described under Count 2 of the Indictment, that is, that contrary to Articles 6 and 7 (2) of the RS Law on Weapons and Ammunition he illegally kept weapons listed in the operative part of the Indictment, whereby he committed the criminal offence of Illegal Manufacturing and Trade of Weapons or Explosive Materials referred to in Article 399 (1) of the CC of RS.

As for the criminal offence referred to in Article 172 (1) in conjunction with Article 180 (1) of the CC of BiH, the Prosecutor's Office of BiH would like to point out that the gathered evidence quite reliably indicates that the suspects Krsto Savić and Milko Mučibabić, as part of the widespread and systematic attack by the police forces, Army of RS and paramilitary units, in the time period described in the operative part of the Indictment, acted as part of a joint criminal enterprise aimed at the persecution of the Bosniak and Croat population in the municipalities of Gacko, Bileća, Kalinovik and Nevesinje, and knowing of such attack, all with the aim to persecute the Bosniak population on political, national, ethnic, cultural and religious grounds, they committed killings, extermination, forcible transfer of population, imprisonment, torture, rape, enforced disappearances, starvation of the population, causing great suffering and injuries to bodily integrity, arbitrary destruction of property on a large scale by applying measures of intimidation and terror and other measures of inhuman nature.

First of all, the evidence gathered during the investigation undoubtedly confirms that the suspects Krsto Savić as the Minister of Internal Affairs of the Serb Autonomous Region of Herzegovina, Chief of the Public Security Centre Trebinje and as a member of the Ministry of Interior Staff of the Serb Republic of Bosnia and Herzegovina for control and command over overall forces of the Ministry of Interior, and Milko Mučibabić as a police officer in the Public Security Station Nevesinje, were fully aware and knew that the non-Serb civilians were the target of the widespread and systematic attack. In the aforementioned capacity, the suspect Krsto Savić, by using such a position with respect to his subordinates, planned, ordered and committed as well as aided and abetted the persecution of the Bosniak and Croat population in the municipalities of Gacko, Bileća, Kalinovik and Nevesinje, while Milko Mučibabić, in the above mentioned capacity, committed and aided and abetted the persecution of the Bosniak and Croat population of the municipality of Nevesinje. The gathered evidence confirms the existence of grounded suspicion that the suspects, given everything mentioned above and acting in the capacity described in the operative part of the Indictment, committed the criminal actions that they are charged with as a part of the joint criminal enterprise since the gathered evidence suggests the existence of a joint criminal plan aimed at the persecution of the Bosniak population, and that the suspects, together with the persons mentioned in the operative part of the Indictment, shared the common purpose and aim to persecute the Bosniak population, which confirms the existence of the joint criminal enterprise and the fact that the suspects actively participated in the execution of such a plan.

All witnesses heard during the investigation have confirmed, as direct victims or eyewitnesses to relevant acts, the existence of the criminal actions mentioned in the operative part of the Indictment. Besides, the witness statements are corroborated by the evidence, creating a clear conclusion on the existence of the criminal actions and the responsibility of the suspects for those actions. The statements of all witnesses heard during the investigation are clear, concise and mutually consistent, so that they fully corroborate the averments made in the operative part of the Indictment, reliably giving rise to the grounded suspicion that the suspects Krsto Savić and Milko Mučibabić committed the criminal actions that they are charged with. Apart from the above mentioned, the material evidence also suggests the existence of the offence and also the existence of the responsibility of the suspects. By assessing the aforementioned pieces of evidence individually and bringing them in mutual connection, one may clearly conclude that there is grounded suspicion that Krsto Savić and Milko Mučibabić committed the criminal offence of Crimes against Humanity referred to in Article 172 (1) in conjunction with Article 180 (1) of the CC of BiH.

The ICTY judgments that are attached to this Indictment as evidence point to everything mentioned above.

As for the existence of the criminal actions under Count 2 of the operative part of the Indictment, the gathered evidence as well as objects and weapons seized from the family house of Milko Mučibabić undoubtedly confirm that he committed the criminal offence of Illegal Manufacturing and Trade of Weapons or Explosive Materials referred to in Article 399 (1) of the CC of RS.

In view of everything stated above, and by assessing the gathered evidence of both subjective and objective nature, it can be clearly concluded that Krsto Savić and Milko Mučibabić committed the criminal actions at the time and in the manner described in the operative part of the Indictment. For those reasons the Prosecutor's Office of BiH moves the Preliminary Hearing Judge of the Court of BiH to confirm the Indictment.

Motion to Extend Pre-trial Custody of Krsto Savić and Milko Mučibabić

Pursuant to Article 227 (3) of the CPC of BiH, in conjunction with Article 137 of the CPC of BiH, the Prosecutor's Office of BiH moves the Preliminary Hearing Judge of the Court of BiH to render, after finding that there is a grounded suspicion that the suspects committed the criminal offence they are charged with and after the confirmation of the Indictment, a Decision extending custody of the suspects Krsto Savić and Milko Mučibabić on the grounds set forth in Article 132 (1) (a) and (b) of the CPC of BiH.

In respect of the extension of custody of the suspects Krsto Savić and Milko Mučibabić, the Prosecutor's Office first of all believes that, besides the grounded suspicion established under the previous decisions of the Court ordering and extending custody, there also exist the custody grounds set forth in Article 132 (1) (a) and (b) of the CPC of BiH.

As for the special grounds to extend custody, the Prosecutor's Office of BiH submits that the requirements set forth in Article 132 (1) (a) and (b) of the CPC of BiH exist, that is, that the suspects have been hiding and that there are circumstances suggesting a risk of flight of the suspects, that there is justified fear that the suspects, if released, will hinder the inquiry by influencing witnesses, accessories or accomplices.

As for the first custody ground set forth in Article 132 (1) (a), the Prosecutor's Office of BiH notes that there is a realistic risk that the suspects might flee if the custody measure is not extended. At this point, the Prosecutor's Office notes in particular that it is evident from the Report on the measures and actions taken upon the Order of the BiH Prosecutor's Office, number KT-RZ-97/06 made by the State Investigation and Protection Agency under number 17-04/1-04-2-381-11/07 of 4 July 2007, and the Official Note of the Intelligence-Analysis Department of the State Investigation and Protection Agency number 17-04/1-04-2-381-15/07 EM of 6 September 2007, that the suspects were hiding and left their permanent and temporary places of residence intending to avoid criminal prosecution. In the opinion of the Prosecutor's Office, the existence of these circumstances was correctly established by the Preliminary Proceedings Judge in the Decision number X-KRN-07/400 of 7 September 2007, and also by the Panel of the Court of BiH in the Decision number X-KRN-07/400 of 4 October 2007. In addition to this, on 28 March 2007, the suspect Milko Mučibabić reported the change of place of residence and as a new place of residence indicated Čalići bb /no number/, Municipality of Čitluk, although he resides with his family at Kilavci bb /no number/, Municipality of Nevesinje. The above facts clearly support the conclusion that the suspects were hiding, intending to avoid prosecution and that they will flee if the measure of their custody is not extended. The risk of flight will become significantly accentuated once the suspects are informed about the criminal offences they are charged with and once, following the confirmation of the Indictment, they are presented with the evidence against them. Therefore, the Prosecutor's Office of BiH submits that the risk of flight at this stage has been intensified, whereby the custody grounds set forth in Article 132 (1) (a) of the CPC BiH have been met.

Considering the custody ground set forth in Article 132 (1) (b), the Prosecutor's Office is of the opinion that if their custody is not extended, there exist a risk that the suspects could hinder the inquiry by influencing witnesses

and accessories. With regard to this, the Prosecutor's Office of BiH notes that the grounded suspicion is mostly based on statements of the witnesses who were, in most cases, the direct victims of the crimes the suspects have been charged with and whose identity is well known to the suspects, so in case of a possible release, the suspects could easily exert influence on the witnesses. On the other hand, considering that the investigation concerns war crimes committed in the territory of Nevesinje Municipality and a wider area, which involved several other co-perpetrators who are currently at liberty, and who are also under investigation, thus there is a justified risk that the suspects, if released, could contact other co-perpetrators and thereby hinder the conduct of the criminal proceedings. All these facts, particularly the anxiety and fear experienced by the witnesses, as well as the fact that some of the witnesses have asked for protection due to the fear for themselves and their families, clearly point to a conclusion that the extension of custody of the suspects is justified for these reasons too. Furthermore, most witnesses dare not still return to the territory of Nevesinje Municipality due to the fear for their personal safety and safety of their families.

It is true that during the investigation stage, the Prosecutor's Office of BiH examined witnesses and proposed their statements as evidence and materials corroborating the averments of the Indictment, however it is necessary to note that most of these witnesses are still afraid and upset because of everything they experienced, and there are no doubts that the release of the suspects at this stage of the proceedings would increase such fear, which justifies the extension of custody of the suspects. Apart from the stated, the Prosecutor's Office of BiH notes that given the nature of the offence they are charged with and the vulnerability of the witnesses, the release of the suspects at this stage of the proceedings would cause anxiety and unease with the witnesses who are to give their evidence in the atmosphere free of fear and pressures at the main trial before the Court of BiH. Additionally, the Court of BiH considers only the evidence presented at the main trial, and bearing in mind the foregoing and in order to secure free testimony of the witnesses at the main trial, the custody measure proves to be necessary also on the grounds set forth in Article 132 (1) (b) of the CPC of BiH.

The Prosecutor's Office of BiH notes that the aforementioned custody grounds have been upheld under several decisions of the Court of BiH issued during the investigation stage, while the reasoned facts justify the extension of custody even after the Indictment is confirmed by the Preliminary Hearing Judge of the Court of BiH. Therefore, the Prosecutor's Office of BiH moves the Preliminary Hearing Judge to extend custody of the suspects Krsto Savić and Milko Mučibabić even after confirmation of the Indictment of the Prosecutor's Office of BiH. According to that decision, the custody would last until the completion of the

trial and maximum 3 (three) years on the grounds set forth in Article 132 (1) (a) and (b) of the CPC of BiH.

Considering all the above, the Prosecutor's Office of BiH moves the Preliminary Hearing Judge of the Court of BiH to confirm the Indictment.
